Returning again this year, Ocean Network Express (ONE) collaborated with PSA Singapore (PSA) for an engaging educational tour for The Japanese School's elementary students at PSA's Pasir Panjang Terminal.

Led by a team of 18 ONE's CSR members, a total of 295 students and teachers participated in the tour on 17th and 18th December 2019. During the tour, participants were introduced to PSA's operational procedures of container handling, inclusive of loading and unloading, the necessary safety checks, and the identification of different container types. ONE played an active role in translating the students' questions for the PSA staff and keeping the children engaged throughout the study tour. The students even diligently took down notes and had a short sharing session after the tour to share their thoughts.

With such an activity, ONE has played a vital role in educating the young generation regarding container shipping and terminal operations, as well as contribute to generating greater awareness of this vital industry.
